RECOMMENDED MIFLEET SOLUTIONS

CONSTRUCTION INDUSTRY
ON-SITE & OFF-SITE ASSET MANAGEMENT

LIGHT DUTY

Pickup Trucks & Construction Vehicles can be equipped with an OBDII Plug'n Play or 3-Wired Covert installed GPS Tracking Device offering location, vehicle diagnostics & driver behavior.

HEAVY DUTY

Diesel powered vehicles such as Big Rigs, Construction Vehicles, Commercial and Agricultural equipment requiring specialized vehicle connectors, such as J1708 / J1939 or other specialized diagnostic protocols.

TRAILER TRACKER

Powered or Unpowered Trailer Tracking is supported with GPS Devices with a wide variety of battery life and functionality. Be updated with its location daily, when in motion and when relocated.

SOLAR TRACKER

Asset Tracking at its finest with a sophisticated solar tracking solution for assets that lack a power source and are typically hard to access. Pings received daily and up to the minute when in motion.

ASSET TRACKER

Location management of both powered and unpowered assets such as construction equipment, trailers, cargo containers & more. Pings received daily and up to the minute when in motion.

POWER TAKEOFF

Monitoring of powered equipment such as rental equipment, construction equipment and more. Confirm where equipment is located and the hours of use for maintenance and invoicing.

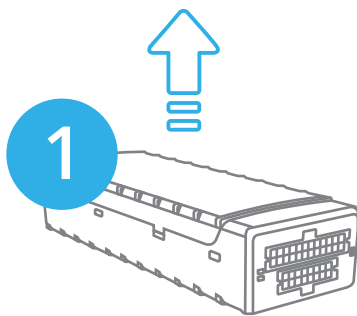

STARTER INTERRUPT

Install a Starter Interrupt on your vehicles and equipment to limit when it can be used. MiFleet can monitor your equipment and even its ability to operate manually or on a defined schedule.

HOW IT WORKS

Purchase & Install our Heavy Duty device which supports J1708/J1939 or other specialized diagnostic protocols.

Driver Behavior, Vehicle Performance & Location Information is automatically sent to our Cloud Servers.

Remotely monitor harsh usage of vehicle, engine diagnostics and location information on our Web Application.
