SOFTWARE BENEFITS

- Real Time Delivery Monitoring**
Access up to the minute location information to keep your customers informed.
- Location Sharing**
Invite customers to monitor their pickup ETA via SMS/Email Message, share a link that shows vehicle location that expires.
- Vehicle Management**
Defined Geofences can alert when vehicles arrive/depart key locations such as airports, hotels, & convention centers.
- DashCam Video Protection**
Use DashCams to protect your drivers & passengers with recorded, event-triggered HD quality video clips in the cloud.
- Improve Driver Safety**
Lower insurance claims and rates by coaching drivers from accurate driver behavior scorecards.

RECOMMENDED MIFLEET SOLUTIONS

DELIVERY INDUSTRY
DOOR - TO - DOOR DELIVERY MANAGEMENT

DASH CAM

A continuously recording Dash Cam where event-based HD (1080p) video clips are auto-uploaded to a video management web application. Excellent for driver training, fraud and exoneration.

LIGHT DUTY

Pickup Trucks, Passenger Vehicles & Delivery Vans can be equipped with an OBDII Plug'n Play or 3-Wired Covert installed GPS Tracking Device offering location, vehicle diagnostics & driver behavior.

HEAVY DUTY

Diesel powered vehicles such as Big Rigs & Delivery Trucks requiring specialized vehicle connectors, such as J1708 / J1939 or other specialized diagnostic protocols.

TEMP MONITORING

Monitor & Record the temperature of your trailer or cargo area to ensure perishables arrives unharmed. Receive alerts & notifications when temperature exceeds desired limits.

HOW IT WORKS

Purchase & Install an OBD-II Plug'n Play or Covert Light Duty Vehicle Monitoring Device.

Driver Behavior, Vehicle Performance & Location Information is automatically sent to our Cloud Servers.

Remotely monitor harsh usage of vehicle, engine diagnostics and location information on our Web Application.
