RECOMMENDED MIFLEET SOLUTIONS

DISTRIBUTION INDUSTRY
DOCK - TO - DOCK SHIPMENT MONITORING

DASH CAM

A continuously recording Dash Cam where event-based HD (1080p) video clips are auto-uploaded to a video management web application. Excellent for driver training, fraud and exoneration.

LIGHT DUTY

Pickup Trucks, Passenger Vehicles & Delivery Vans can be equipped with an OBDII Plug'n Play or 3-Wired Covert installed GPS Tracking Device offering location, vehicle diagnostics & driver behavior.

HEAVY DUTY

Diesel powered vehicles such as Big Rigs, Delivery Trucks, Commercial and Agricultural equipment requiring specialized vehicle connectors, such as J1708 / J1939 or other specialized diagnostic protocols.

TRAILER TRACKER

Powered or Unpowered Trailer Tracking is supported with GPS Devices with a wide variety of battery life and functionality. Be updated with its location daily, when in motion and when relocated.

ELD

This solution is used to electronically record a driver's Record of Duty Status (RODS), ultimately replacing the paper logbook some drivers currently use to record their compliance with Hours of Service (HOS).

TEMP MONITORING

Monitor & Record the temperature of your trailer or cargo area to ensure perishables arrives unharmed. Receive alerts & notifications when temperature exceeds desired limits.

STARTER INTERRUPT

Install a Starter Interrupt on your vehicles and equipment to limit when it can be used. MiFleet can monitor your equipment and even its ability to operate manually or on a defined schedule.

HOW IT WORKS

Purchase & Install an OBD-II Plug'n Play or Covert Light Duty Vehicle Monitoring Device.

Driver Behavior, Vehicle Performance & Location Information is automatically sent to our Cloud Servers.

Remotely monitor harsh usage of vehicle, engine diagnostics and location information on our Web Application.
