

### Locate Trailers, Reduce Costs & Increase Asset Utilization

The MiFleet MF600 Series Solar Tracking Solution is the ultimate asset location device. Designed for long term, harsh weather environments requiring a truly rugged design, it combines smart reporting frequencies to monitor stationary assets, plus those that are on the move. There is nothing stopping you from knowing where your assets are located with MiFleet.

#### How It Works

Easy as 1. 2. 3.

**1**  
Install

**2**  
Drive

**3**  
Monitor

#### Features & Benefits

Discover the power of a Solar Tracker.

##### REAL-TIME MONITORING

Remotely Manage your fleet with accurate up to the minute location information.

##### ASSET LOCATION MANAGEMENT

Monitor the location of your asset & make better decisions based on their location.

##### ALERTS & NOTIFICATIONS

Be notified of triggered events such as speeding events, harsh driving behaviors & departure arrival/departure times.

##### OPTIMIZED ASSET UTILIZATION

Locate assets to be assigned to jobs.

##### HISTORICAL REPORTING

Verify vehicle location information with the generation of historical reports.

##### ASSET MAINTENANCE

Increase awareness of asset maintenance scheduling, determine when and where maintenance can be performed.

##### GEOFENCE BOUNDARIES

Customize high frequent delivery & service locations and be alerted when vehicles arrive & depart.

##### ASSET RECOVERY

Locate lost or stolen assets or trailers.
