## SOFTWARE BENEFITS

- Location Information**  
Receive up to the minute location information to validate vehicle location for dispatch and positioning.
- Vehicle Management**  
Geofences alert you when vehicles arrive/depart key locations such as power stations, pole locations and maintenance yards.
- Vehicle Maintenance**  
Optimize your vehicle's maintenance schedule from its odometer reading.
- Custom Map Locations**  
Customize your map with points of interest to include maintenance yards, service locations & power stations.
- Vehicle Location History**  
Confirm and validate vehicle arrival, on-site and departure times with historical GPS records.

# RECOMMENDED MIFLEET SOLUTIONS

UTILITIES INDUSTRY  
RESPOND FASTER TO EMERGENCIES

DASH CAM

A continuously recording Dash Cam where event-based HD (1080p) video clips are auto-uploaded to a video management web application. Excellent for driver training, fraud and exoneration.

LIGHT DUTY

Pickup Trucks, Passenger Vehicles & Utility Vans can be equipped with an OBDII Plug'n Play or 3-Wired Covert installed GPS Tracking Device offering location, vehicle diagnostics & driver behavior.

HEAVY DUTY

Diesel powered vehicles and equipment requiring specialized vehicle connectors similar such as J1708 / J1939 or other specialized diagnostic protocols.

TRAILER TRACKER

Powered or Unpowered Trailer Tracking is supported with GPS Devices with a wide variety of battery life and functionality. Be updated with its location daily, when in motion and when relocated.

SOLAR TRACKER

Asset Tracking at its finest with a sophisticated solar tracking solution for assets that lack a power source and are typically hard to access. Pings received daily and up to the minute when in motion.

ASSET TRACKER

Location management of both powered and unpowered assets such as construction equipment, trailers, cargo containers & more. Pings received daily and up to the minute when in motion.

POWER TAKEOFF

Monitoring of powered equipment such as rental equipment, utilities equipment and more. Confirm where equipment is located and hours of use for maintenance and invoicing.

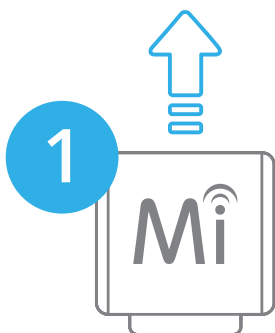

STARTER INTERRUPT

Install a Starter Interrupt on your vehicles and equipment to limit when it can be used. MiFleet can monitor your equipment and even its ability to operate manually or on a defined schedule.

## HOW IT WORKS

1 Purchase & Install an OBD-II Plug'n Play or Covert Light Duty Vehicle Monitoring Device.

2 Driver Behavior, Vehicle Performance & Location Information is automatically sent to our Cloud Servers.

3 Remotely monitor harsh usage of vehicle, engine diagnostics and location information on our Web Application.
