- » Prevents Insurance Fraud

MiFleet + Vision:

Dash Cam Solution for Commercial Fleets

Improve safety and risk of false claims by using vehicle video monitoring with real-time visibility. This is fully integrated into MiFleet video monitoring solution.

Live Monitoring

Identify and improve unsafe driver behavior by **logging in to monitor your drivers in real-time**. Additionally, this service provides **voice and video** to all pre-recorded and live monitoring.

Reduce Risk

Stored on our cloud-based platform, you will be able to review **HD1080P video** and be **alerted instantly when an event occurs** or review pre-recorded events. **Reduce the risk of false claims, live track, and manage driver behavior.**

MiFleet Integration

MiFleet + Vision is an extension of your already existing MiFleet platform. No need to logout and login into another account is available within the MiFleet Application.

Driver Behavior

Monitor driving behavior through automatic event recording on harsh triggered events.
