MiFleet MiTrak solution utilizes your very own smartphone or tablet. Contact sales@mifleet.us for more information.

MiTrak Personal Tracking

MiTrak turns any smartphone or tablet into the ultimate GPS tracking device. Eliminate additional equipment in vehicles and simply download the app. The app helps control the location of the device it is installed on, to view the route, send commands, and take photos on demand. It can be used for personal tracking, non-vehicle tracking, door-to-door sales, security guard tracking, or construction boss tracking, all you need to do is install!

Instant Admin Communication

Instant two-way communication from mobile employee to admin. Check location quickly and send direct SMS messages to employee on any job site.

Upload Photos

Employee can instantly take and upload photo directly from application. A useful tool for construction boss to provide visual feedback to admin personal.

GPS Tracking

By utilizing any phone or tablet GPS you can now instantly know the location of any employee. MiTag makes a great tool for employees who travel by foot and would not have the ability to connect a GPS tracking device.
