

PERSONAL TRACKER DESIGNED FOR RELIABLE SHORT-TERM DEPLOYMENTS

MFP51 PERSONAL TRACKER

The MFP51 is a personal tracker that is a battery operated, rechargeable tracker designed for reliable, short term deployments. The personal tracker is an ideal solution for those looking to manage assets and personnel inconspicuously. The extremely small form factor and rechargeable, internal battery, allow the device to be installed, carried, or hidden away for days, weeks, or months at a time.
