

DRIVER ID

DRIVER IDENTIFICATION AND VEHICLE MONITORING SOLUTION

MiFleet

EASILY MONITOR AND AUDIT DRIVER PERFORMANCE

The Driver ID kit ties directly into the MiFleet solution allowing it to easily monitor drivers activities. Using the assignable driver key fobs, drivers can easily check in to vehicles before driving. This enables all vehicle trips and events to be tied to the driver in the platform. See live events as drivers check in to vehicles or run various reports on your vehicles and drivers. Driver ID offers the ability to easily distinguish good driving behaviors and address accountability issues.

- INSTANT READ OF DRIVER ID**
Instantly identify the current driver before any trip begins.
- VEHICLE LOCATION MANAGEMENT**
Monitor the location of your vehicles & make better decisions based on their location.
- IMPROVE DRIVER SAFETY**
Improve driver safety and reduce up to 66% of driving habits that lead to accidents.
- ALERTS & NOTIFICATIONS**
Be notified of triggered events such as speeding events, harsh driving behaviors & departure arrival/departure times.
- KEY FOB VERIFICATION**
Assignable driver key fobs allow drivers to easily check in to vehicles before driving.
- DRIVER BEHAVIOR**
Record harsh driving behaviors and coach drivers with a driver scorecard.
- REAL-TIME MONITORING**
Monitor and assess driver activities.
