Easily Monitor and Audit Driver Performance

The Driver ID kit ties directly into the MiFleet solution allowing it to easily monitor drivers activities. Using the assignable driver key fobs, drivers can easily check in to vehicles before driving. This enables all vehicle trips and events to be tied to the driver in the platform. See live events as drivers check in to vehicles or run various reports on your vehicles and drivers. Driver ID offers the ability to easily distinguish good driving behaviors and address accountability issues.

How It Works
Easy as 1. 2. 3.

Monitor

Features & Benefits

INSTANT READ OF DRIVER ID
Instantly identify the current driver before any trip begins.

KEY FOB VERIFICATION
Assignable driver key fobs allow drivers to easily check in to vehicles before driving.

AUTOMATICALLY BIND DRIVER
Key FOB designations bind the current driver to the vehicle during the duration of vehicle activities.

REAL-TIME MONITORING
Monitor and assess driver activities.

DRIVER BEHAVIOR
Record harsh driving behaviors and coach drivers with a driver scorecard.

ALERTS & NOTIFICATIONS
Be notified of triggered events such as speeding events, harsh driving behaviors & departure arrival/departure times.

IMPROVE DRIVER SAFETY
Improve driver safety and reduce up to 66% of driving habits that lead to accidents.

VEHICLE LOCATION MANAGEMENT
Monitor the location of your vehicles & make better decisions based on their location.
