

PLUG'N PLAY INSTALLATION A SIMPLIFIED YET ROBUST DEVICE

MF95 LIGHT DUTY

The MF95 services features a compact form factor, superior GPS performance, OBD-II interface, backup battery, and a 3-axis accelerometer. These features enable the MF95 to access vehicle diagnostic interface data, track vehicle speed and location, plus detect hard braking, acceleration and capture pre and post-impact data. Superior internal antennas for both cellular and GPS eliminate the need for professional installation and make the MF95 install – quick, easy and inexpensive.
