

PLUG AND PLAY INSTALLATION A SIMPLIFIED YET ROBUST DEVICE

MF96 ELD

The MF96 services features a compact form factor, superior GPS performance, backup battery, and a 3-axis accelerometer. These features enable the MF96 to access vehicle diagnostic interface data, track vehicle speed and location, plus detect hard braking, acceleration and capture pre and post-impact data. Superior internal antennas for both cellular and GPS eliminate the need for professional installation and make the MF96 install – quick, easy and inexpensive.
