

RELIABLE TRACKING DEVICE FOR LONG-TERM DEPLOYMENTS

MFW2-12B VEHICLE TRACKER

The MFW2-12B is hardwired tracker that features a long-lasting internal rechargeable battery. It is designed to be a reliable tracking device for long term deployments; suitable for monitoring and locating your powered vehicle, asset or equipment that are stationary or on the move efficiently. Its IP67 waterproof enclosure can withstand harsh weather environments and the superior internal cellular and GPS antennas eliminate the need for external antennas for easy installation.

MFW2-12B SUPPORTS

Ignition Status
Impact Detection
Motion Detection
Device Battery Status
GPS Location
GPS Speed
Vehicle Idle
Tow (Start/Breadcrumb/Stop)
Geo-Fence
Device Removal Alert
Remote Device Management
Device-Side Logged Messages

SPECIFICATIONS

Waterproof: IP67
Dimensions: 5.2in x 3.93in x 1.34in
Weight: 11.3oz
Battery: Rechargeable Li 9600 mAh/3.6V
Battery Life: Standby Time (2 hours active tracking per day)
5 minutes reporting: 170 days
Charging: Magnetic USB cable (recommend using 5V 1A adapter, 10 hours charging time)
Operating Temperature: -25 ~ +70 (-13°F ~ 158°F)
Mounting: Magnets/Screws

DEVICE SUPPORTS

Internal Antennas
Charging Port
LED Indicator: Network, GNSS and Battery
Digital Input
Digital Output
Configurable Input (Digital/Analog)
Voltage Output (DC 5V/12V)

ACCESSORIES

Included:
12 Wire Extension Cable (Power, I/O)
USB Cable: Charging
Screws (Mounting)
Optional:
Magnets (Mounting)

- IP67 WATERPROOF
- INTERNAL BATTERY
- INCREASE ASSET UTILIZATION
- LOCATION MANAGEMENT
- LONG TERM DEPLOYMENTS
- REAL-TIME MONITORING
- ALERTS & NOTIFICATIONS
- THEFT PREVENTION
- EASY INSTALLATION
