

SURFSIGHT AI-12

DASH CAMERA

Equip your fleet with the Surfsight AI-12, it is the future of video telematics and enhanced road safety. The Surfsight AI-12 is designed with you and your fleet in mind, it uses cutting edge technology like HD video, a user friendly cloud connected platform and powerful machine vision + AI technology. Increase driver confidence in your fleet with the Surfsight AI-12 by capturing in-cabin and road events simultaneously, captured video events are automatically uploaded into the cloud, live notifications are reminders that help coach drivers to develop better driving habits, which can increase road safety. Access live video and recordings instantly through the cloud platform anytime, anywhere.
