

VEHICLE MONITORING, DRIVER SAFETY AND INCREASE SECURITY

Keep your family safe in a well maintained vehicle with MiFleet's remote access to engine trouble codes & vehicle performance information. Families with first time drivers or elderly family members can be alerted of vehicle usage, location information and driver behavior habits to keep drivers safe. MiFleet supports vehicle theft recovery and can even assist in traffic violation defense.

- Quick and Easy Installation**
Plug 'N Play installation allows you to get set up in 5 minutes.
- Real-Time Location Information**
Monitor the usage of family vehicles remotely to ensure all trips are safe.
- Driver Behavior Alerts**
Be notified when speeding events, harsh braking and excessive acceleration occur.
- Location Arrival and Departure Alerts**
Receive alerts with custom geo-fence boundaries around frequent arrival and departure locations such as places of work, school or family homes.
- Historical Reporting**
Benefit from your vehicle location history - know where, when and how your vehicle arrived at its destination.
- Maintenance Reminders**
Be notified of mileage based maintenance schedules.
- Improve Driver Safety**
Coach young drivers with the assistance of a driver scorecard.
- Vehicle Diagnostics**
Be alerted to maintain your vehicle when the check engine light comes on.
