

MFV350 VEHICLE TRACKER

The MFV350 is a versatile vehicle tracker that is feature rich, supporting extensive I/O capabilities, 1-wire and CAN bus. It has superior GPS performance, and is designed to be a complete reliable vehicle tracking device suitable for monitoring your fleet.

THE MFV350 SUPPORTS

Ignition Status	GPS Speed
Motion Detection	Vehicle Idle
Harsh Acceleration	Idle Time
Harsh Braking	Tow (Start/Breadcrumb/Stop)
Harsh Cornering	Geo-Fence
Impact Detection	Remote Device Management
Device Battery Status	Device-Side Logged Messages
GPS Location	

DEVICE SUPPORTS

Internal Antennas	Digital Inputs
Optional External GPS antenna	Digital Outputs
LED Indicator: Cellular, GNSS and Power	1-Wire Interface
Configurable Input (Digital/Analog)	Serial RS232
CAN Bus Interface - CAN 2.0A/B, SAE J1939	

DEVICE BEHAVIOR

Reporting Frequency:
 Every 30 seconds while in motion and Ignition On
 Every 6 hr while stationary and Ignition Off
 Installation Time: <20 Minutes

SPECIFICATIONS

Dimensions: 3.15"(L) x 1.8"(W) x 0.9"(H)
 Weight: 2.65oz
 Battery: Rechargeable Li-Polymer, 250 mAh
 Operating Temperature: -30° ~ +80°

ACCESSORIES

Included: 16 pin harness (Power, I/O)

- INTERNAL BATTERY
- 1-WIRE INTERFACE
- MULTIPLE I/O
- REAL-TIME MONITORING
- ALERTS & NOTIFICATIONS
- DRIVER BEHAVIOR
- LOCATION MANAGEMENT
- INCREASE ASSET UTILIZATION
- THEFT PREVENTION
