

MFTSDT1-B

DOOR & TEMPERATURE SENSOR

The MFTSDT1-B is a battery powered Door and Temperature sensor that uses the latest Bluetooth technology BLE 5.0. The sensor is designed to collect and monitor the door status and environment temperature. The MFTSDT1-B is a solution that resolves losses caused by unexpected temperature changes, and when doors left open after being accessed.

MFTSDT1-B SUPPORTS

BLE 5.0
FOTA

DEVICE BEHAVIOR

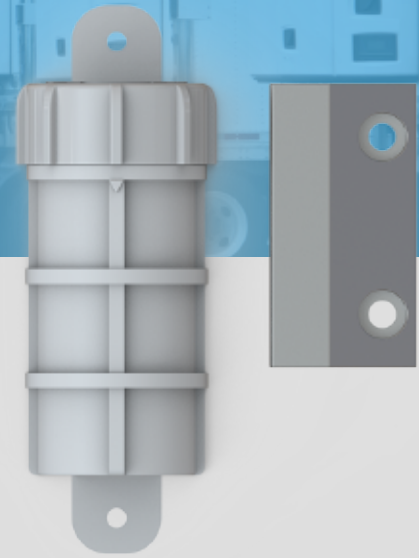

Reporting Frequency:
Every 10 seconds
Installation Time: <5 Minutes

SPECIFICATIONS

Waterproof: IP67
Dimensions: 0.3in x 0.1in x 0.13in
Weight: 1.83oz (includes battery)
Battery: Replaceable CR2 battery (1000mAh)
Battery Life: 6 years reporting every 10 seconds
Temp Environment(for Battery Only): -30° ~ +60° (-22°F ~ 140°F)
Transmission Range: up to 300m (Open Field)
Operating Temperature: -40° ~ +85° (-40°F ~ 185°F)
Build-in Temp Sensor Accuracy: ±3°F
Mounting: Screws

ACCESSORIES

Included:
Screws
CR2 Battery

- ✓ **INTERNAL BATTERY**
(up to 6yrs reporting every 10seconds, Replaceable)
- ✓ **BLE 5.0**
- ✓ **IP67 RATING**
- ✓ **NEAR REAL-TIME MONITORING**
- ✓ **ALERTS**
- ✓ **EASY INSTALLATION**
- ✓ **WIDE TRANSMISSION RANGE**
- ✓ **WIDE RANGE OF OPERATING TEMPS**
