

TOOL TRACKING

UNLOCK EFFICIENCY AND OPTIMIZE OPERATIONS WITH OUR TOOL TRACKING SOLUTION

MiFleet

REAL-TIME TRACKING OF TOOLS, ENSURING THEIR EFFICIENT UTILIZATION AND PREVENTING LOSS OR MISPLACEMENT

Welcome to our state-of-the-art Tool Tracking Solution, designed to revolutionize the way you manage and monitor your valuable tools. Say goodbye to the headaches of lost or misplaced tools, wasted time searching, and inefficient inventory management. Our comprehensive system combines the power of GPS and Bluetooth technology, providing you with real-time tracking and control over your tools like never before.

- BLE 5.0 Sensor Technology**
Through one of our supported BLE Hubs, data can be effortlessly transferred wirelessly using our BLE 5.0 ID Beacons.
- Accurate Tool Tracking**
Site managers and foremen can monitor any asset of interest location in real-time via smart devices with an internet connection 24/7/365.
- Construction Site Theft Prevention**
Tools, equipment, materials, and machinery thefts are being prevented or significantly reduced or spotted in the process, giving enough time to take appropriate actions.
- Smart ID Beacons**
'Proximity Event' and 'Detection By Filters' practical event scenarios help to sort, monitor, manage, and optimize construction site assets utilization with supreme efficiency.
- Improve Tool Usage Habits**
Tracking and monitoring the routine events of laborers, along with implementing a suitable motivation system, can enhance company reputation, streamline workflow, and reduce operating costs.
- Wireless & Affordable**
Bluetooth connectivity ensures fast installation and setup, low interference, power consumption and is inexpensive. If damaged, lost or stolen, the Beacons can be quickly replaced.
- Alerts**
Alerts sent when device is exposed to light for notifying users when parcels or luggage been open.

SERVICES AND TRADES

EFFICIENT UTILIZATION & PREVENTING MISPLACEMENT

MiFleet helps say goodbye to the headaches of lost or misplaced tools, wasted time searching and inefficient inventory management.

HEALTHCARE

WORK SMARTER AND FOCUS MORE TIME ON YOUR PATIENTS.

Healthcare workers can spend up to 25% of their time simply searching for equipment. MiFleet provides a standalone asset management platform to allow quick location data of mission critical medical devices. You can easily set a geofence area to give you instant notifications via email or text message that the equipment has left its facility.

UTILITIES

UTILITY EQUIPMENT & TOOLS

MiFleet assists with the daily management of equipment and tools with increased efficiency and productivity in mind. MiFleet provides you insight to more than just your fleet.
